

KERN COUNTY GUN CLUB
P.O. Box 21570
Bakersfield, CA 93390

www.kerncountygunclub.com

To the Membership:

Today the club enjoys the largest General Fund in the history of the Kern County Gun Club. In these economic times this is very important to the survival of any business. We have paved the road to the club thanks to Mike Jones and we continue to add additional asphalt to maintain this Club asset. Thanks to the success of the Annual Dinner, Sporting Clays, Skeet, Trap and most of all your membership renewals, we have been able to maintain our Club and increase the General Fund. We thank Dirk O'Rear and Mike Jones for energizing the Sporting Clays Program attracting sponsorships, acquiring donations and holding profitable shoots. Sporting Clays is expanding with stations, trees and soon a large permanent awning with a concrete pad to accommodate future events.

The Scholastic Clay Target Program (Youth Program) is up and running strong under the leadership of Dan Shuford with assistance from Bruce Binns and Frank Buoni. We thank Dan for offering us his guidance and experience with our Youth Program and with the continued help of Jason Quick and our other local NRA representatives we look forward to continued help with grants for these most needed programs.

The Club operations are currently overseen by our President, Steve Jennings, Vice President, Bruce Binns and Board Member, Frank Buoni. We could not be more fortunate for their countless hours running daily operations and ambitious desire to see that the Club is being operated properly. We have implemented a sales/product/inventory Point of Sale Computer System. This information is logged by our Treasurer, Ken Ferra and allows the Board to monitor and make business decisions in a timely manner. The Manager's Quarters have been rented with a signed rental agreement. An electric meter was donated and installed by Jack McGee. At the request of members and by unanimous vote of the Board, tree planting will be completed on the West side of the Clubhouse beginning in January 2012 thanks to the donation of additional trees.

The Club and Club House have never looked better. The new furniture and overall appearance is a positive note to the pride we all take in our Club.

Please continue to visit our website regarding shooting hours, and future Sporting Clays, Trap, Skeet and Youth Program events. Our new webmaster, Bob Williams is updating our website on a regular basis.

The success of the Kern County Gun Club comes from the continued support we receive from our annual dinner, profitable shoots, donations and most importantly your annual dues. Please continue your support and help us plan for the future as we work to provide you with an outstanding shotgun shooting experience.

To all of our supporters and volunteers, thank you, we are very grateful. We wish you all a Merry Christmas and joyous holiday season.

Thank you,

KCGC Board of Directors
